

Here I put a full sentence for the answer. The system will not be able to recognize it because I try to maintain my length of the sentence for the answer key to be as reasonable as possible. However, when you put a long answer it will not accept it because there are too many extra words which the Levenshtein distance will count it as errors.

agent: Hi, my name is Agent. And what is your name?

user: jerry

agent: Who do you think will be the MVP?

user: kobe is going to win

agent: I agree too

agent: Who do you think will win the defensive player?

user: howard is going to win the most defensive players this year.

agent: What are you talking about?

user: howard is going to win

agent: I agree too

agent: Who do you think will win the championship?

user: fuck u

agent: hey, be nice

user: ok, lackers os pong to win

agent: I agree too

agent: Who is your favorite player?

agent:

user: lackers is my favourite team, and it always will be

agent: What are you talking about?
